

Quality Assurance Technician

Fine Line Graphics, a leader in packaging graphics, provides innovative Packaging Solutions that enhance brand identity. Our services include premedia, imaging and management of the entire brand development and execution cycle. FLG works with many of the world's preeminent consumer product goods companies and retail merchants, as well as the manufacturers and printers that support them. We're currently seeking an experienced QA Technician to join our team.

Position Type: Full Time
Shift/Hours: 8am-5pm

Experience

The ideal candidate would have a vast knowledge of the print and packaging prepress industry along with an ability to work under tight deadlines. Candidate should have experience in proofreading and be able to check raw digital files against final soft proof approvals (PDF) to ensure there are no mistakes. Experience in a production art/premedia environment with ability to work independently and have a sharp eye for detail.

Responsibilities

- Review job ticket instructions to determine job requirements
- Using appropriate software (ESKO Bitmap Viewer) perform verification
- Completion and submission of multi-point QC Checklist
- Perform quality assurance tests to all modified artwork (i.e UPC bar width)

Requirements

- Background in flexible packaging with Prinergy or ESKO experience preferred
- General understanding of graphic workflow in flexography, gravure or offset
- Experience with Food Packaging regulations (NLEA, AIB, etc.)
- Completion of High School/Technical School with a focus on graphics or computers
- Bachelor's of Science or packaging related discipline preferred

FLG offers an excellent compensation and benefits package including medical, dental, life, and disability plans as well as a Simple IRA plan.

FLG is an Equal Opportunity Employer / Affirmative Action Employer m/f/d/v
